GROUND PROTECTION  
TEMPORARY ROADS  
TEMPORARY CARPARKS  
TEMPORARY STORAGE AREAS

## PORTATRACK 8ft x 4ft Ground Protection panels from £68

PORTATRACK Panels are manufactured from recycled polyethylene and are virtually indestructible  
The Standard Panels are 12 mm thick , weigh 33 Kgs and will take 30 tons  
The Heavy Duty Panels are 18 mm thick and weigh 50 Kgs and will take 100 tons  
Both panel have an embossed surface on both sides that is suitable for all vehicle types.

The Standard panels weigh 33 Kgs  
Heavy Duty panels weigh 50 Kgs  
Both can be handled by two men.  
No special tools or equipment are needed.

The panels can be laid side by side to form a 2.44 m wide road, or end to end to form two trackways

We have supplied products to many Councils throughout the UK for ground protection, beach access, cemeteries and temporary roads

Customers include Mobile Home Parks where the problem of moving 8 ton vans on 18" wheels across soft grass is solved with Portatrack
